Ivan Rossinsky

Frontend developer

@rossinskylv
rossinsky2005@gmail.com
Minsk

I am a student at Faculty of Mechanics and Mathematics, 2nd year. Passionate about math, data analysis and web-programming. Curator for 1st-year students. Strong interest in applying mathematics to real-world problems. Actively learning data analysis techniques and programming. Well-rounded individual.

Projects

Notion Redux
December 2, 2023

The multi-user note-taking application allows users to create, delete, and edit their own notes. Each user can sign up for an account, log in, and manage their personal collection of notes.

React   Redux   SCSS   **Link to GitHub**

Lamoda
October 20, 2023

The online store application with product filtering and sorting capabilities allows users to browse and purchase products with ease.
